Our approach

Your specialist event partner,
providing world-class
event services and solutions

GL events' reputation for delivering outstanding solutions for our clients' event infrastructure needs, is second to none. Our solutions go far beyond a simple structural shell. Our project team is composed of visionary project managers, innovation design professionals and the best technical craftsmen, guaranteeing you an end result which combines space, style, functionality and depth. The overall quality of solution mirrors and enhances your brand personality – providing the perfect showcase for your project.

Let us take you on a journey to discover what sets GL events apart.

Your event

Delivering intelligent solutions – enabling great events

Whatever your event, our solution will always begin with a thorough understanding of your objectives and your vision, both for you and your audience.

From this foundation, grows a design which is both imaginative and pragmatic – rooted in our experience of delivering quality infrastructure for events of every shape and size, prioritising safety, functionality, sustainability and budget. Whether your event is modest in scale, or complex in both size and scope, our approach is the same, and guarantees you the GL badge of assurance and consistency that our clients come to expect on every project, every time.

The event infrastructure solutions we can offer for any application can be incredibly varied and range from a single temporary structure, to a complex mix of structures and seating with a high level of fit out and ancillary items. Our portfolio of in-house services even includes temporary power, furniture and carpeting, lighting installations and look and feel. And thanks to our network of supply chain partners, handpicked for their commitment to quality, safety and sustainability, you can rest assured that we can supply every element of your solution in a single order – one supplier, one point of contact. One impeccable event.

In this section, you can find examples of some of our most frequently delivered applications

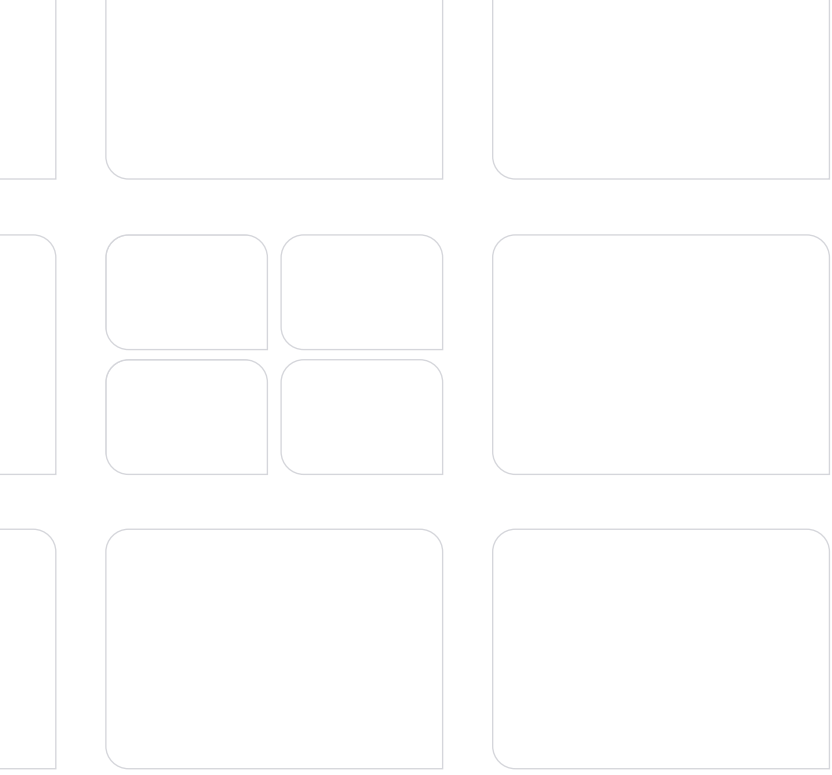

02

Beyond events

Temporary infrastructure for every application

The flexibility of our product makes it ideal for use in all kinds of temporary infrastructure, beyond the events world.

Common requests include providing temporary short-term storage structures as well as disaster recovery related applications where speed of response is critical. GL events has a proven track record in delivering temporary emergency structures during the pandemic, the RAAC concrete crisis and in response to fire, flood and other events causing large scale disruption to permanent infrastructure.

Our solutions

GL events offers a range of complementary event infrastructure commodities which can be used on their own or in combination to create the perfect event venue. The only limit is your imagination.

Delivering intelligent solutions -
enabling great events

Structures

12

13

03

Single-deck

From the simplicity of our Premier range, our flag-ship Absolute structures, and our latest structural designs, QWAD and Celeste, GL events single-deck structures offer the highest level of available quality however you choose to use them.

03

Multi-deck

16

When space on site is limited, multi-deck structures are a great option, offering multiple spaces for different uses. If you're trying to combine private hospitality suites, large scale restaurant or bar space, and a media centre what better to use than a GL events multi-deck structure from our Absolute or QWAD range.

Marquees

18

Our range of marquees is almost as broad as the number of ways in which you can use them!

From hospitality and catering spaces, to tents for festivals, shows and outdoor exhibitions, our ever popular and versatile marquees are quick to install and remove, getting you event ready in next to no time.

Chalets and pagodas

20

There are definitely times when small is beautiful! Whether you want to create discrete hospitality areas linked by service corridors, outdoor exhibition stands, retail or F&B concessions, or stand-alone structures for security, ticket offices or welcome desks, we have a small but perfectly formed structure to meet your needs.

THE ORANGERIE BAR

03

21

Seating

22

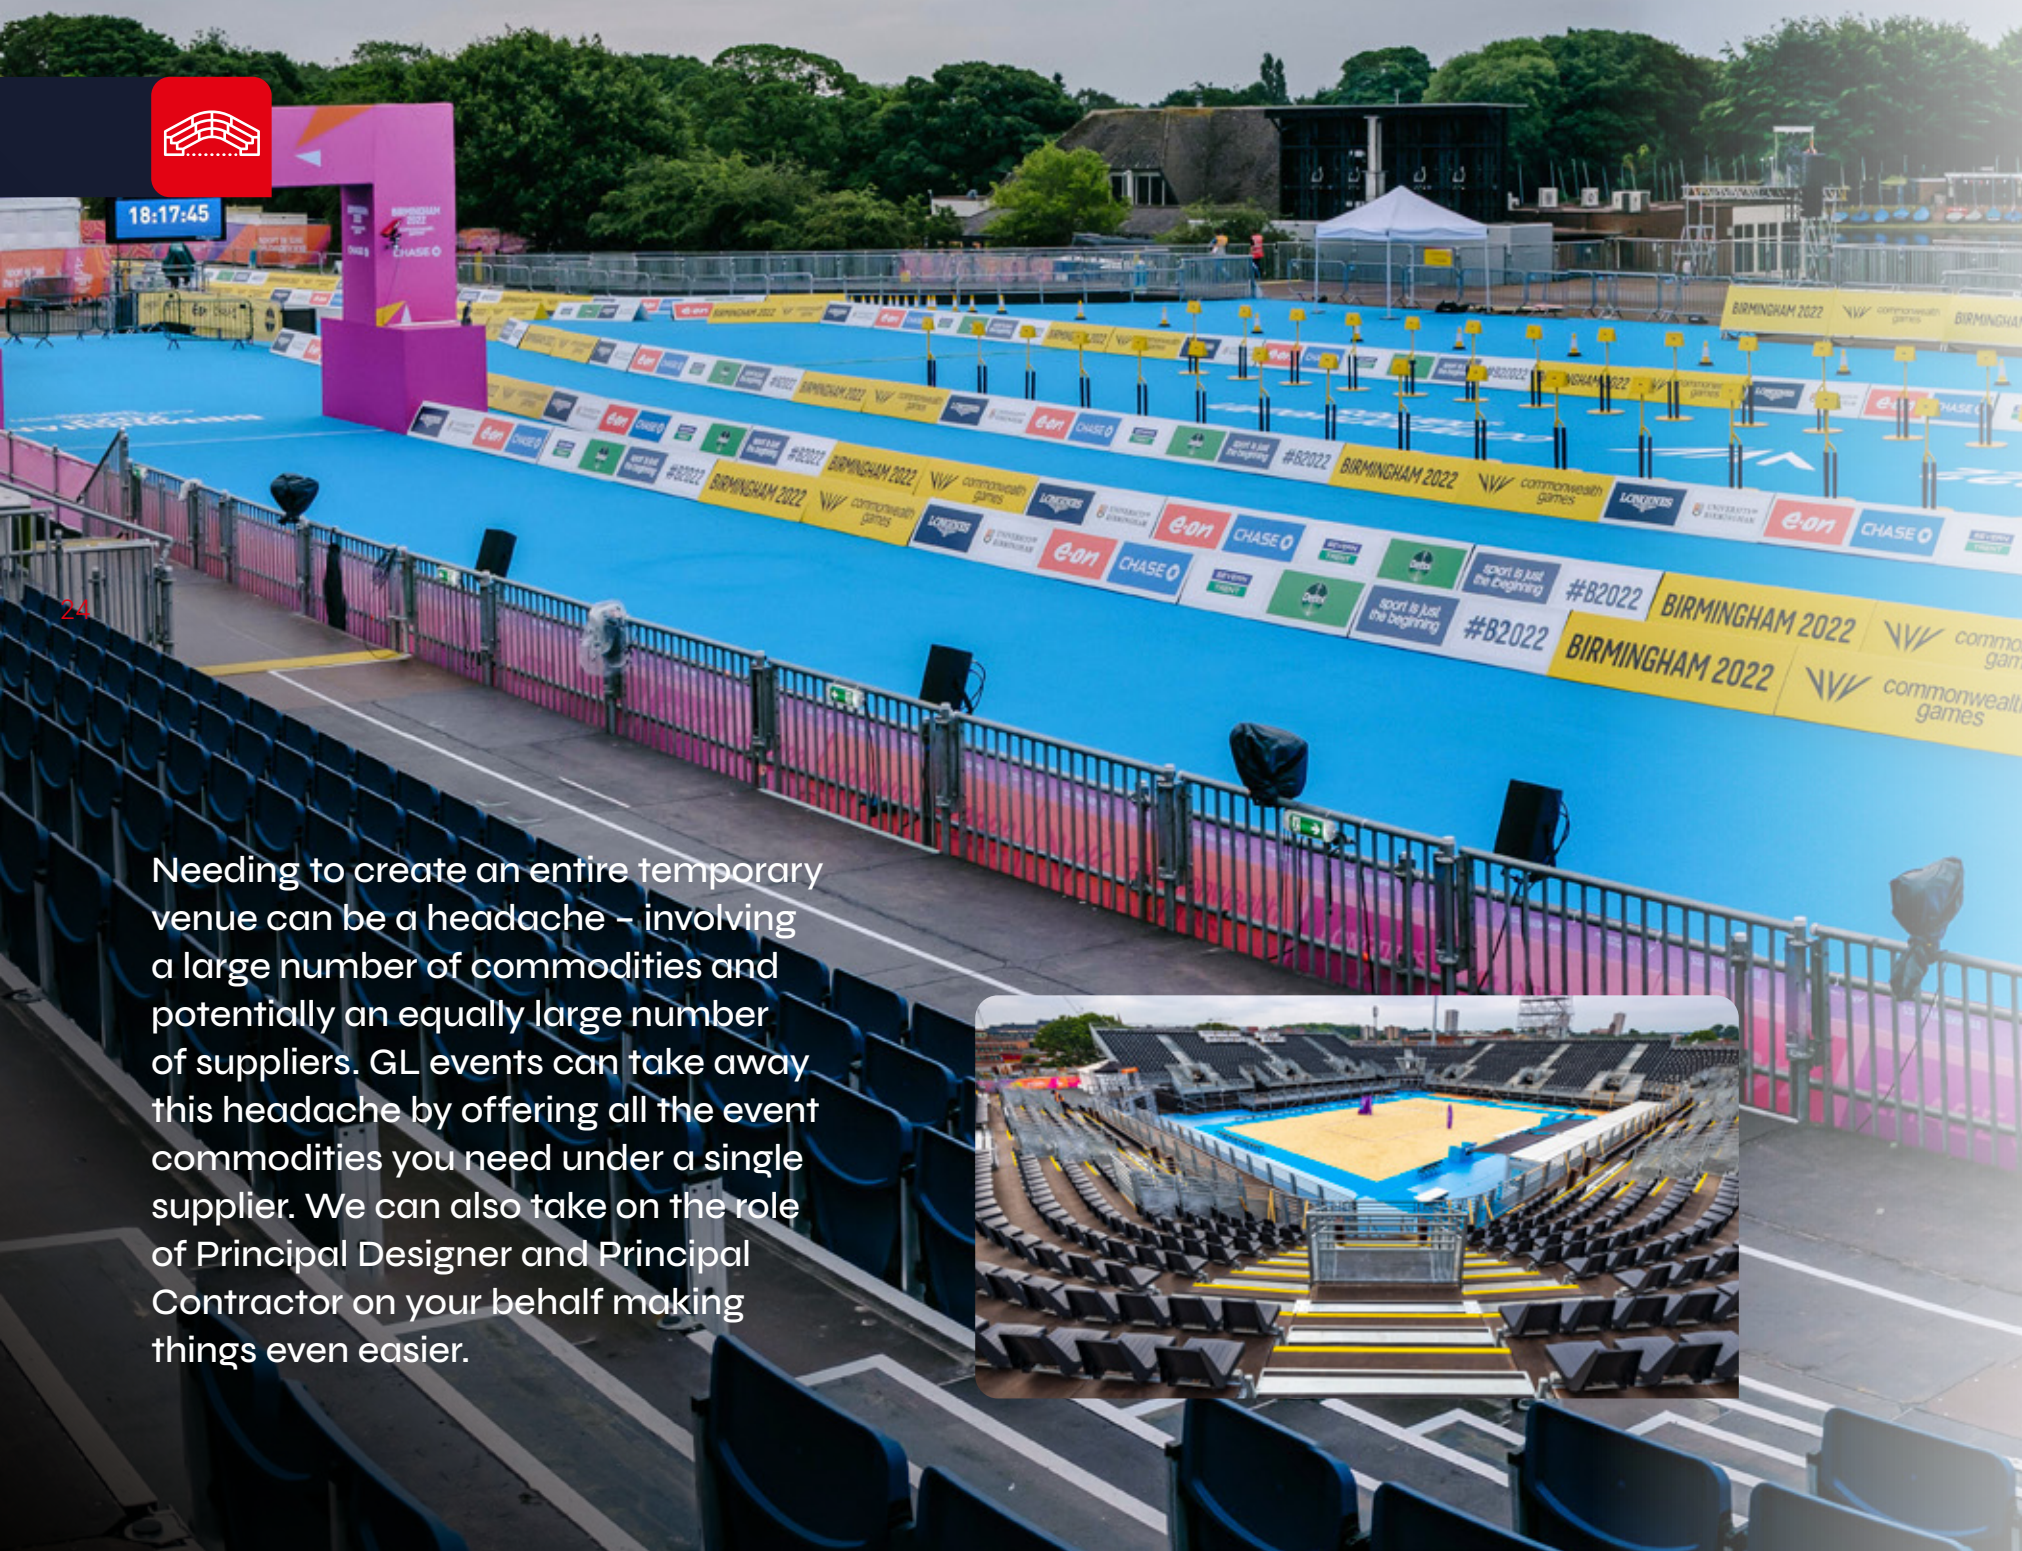

Our temporary seating designs are entirely bespoke, which means we can create the perfect temporary arena for your event with a spectator experience which is second to none. From flat floor seating, or a single tiered grandstand, to splayed seating grandstands, and complete arenas, our seating boasts a range of customisation features such as covered stands and cushioned seats.

23

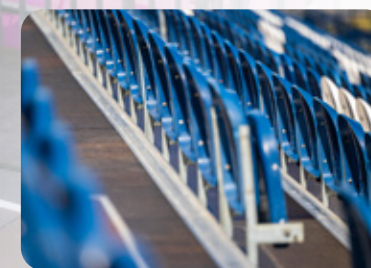

Overlay

24

Needing to create an entire temporary venue can be a headache – involving a large number of commodities and potentially an equally large number of suppliers. GL events can take away this headache by offering all the event commodities you need under a single supplier. We can also take on the role of Principal Designer and Principal Contractor on your behalf making things even easier.

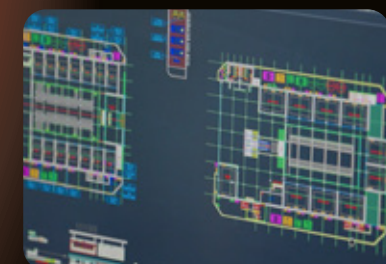

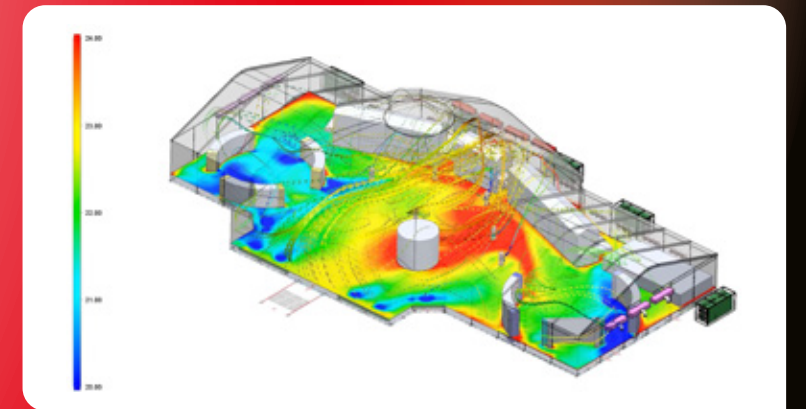

Power

26

When your event requires temporary power generation and distribution, you can rely on GL events to engineer you a solution which makes your power usage as efficient as possible, saving you money and ensuring that your carbon emissions are kept to a minimum as well!

27

Furniture

28

Event furniture is a key part of making your event stand out – looking good as well as offering practicality and above all comfort for your guests. GL events offers a wide range of furniture items for every scenario from high end hospitality to casual catering, conferences and exhibitions.

29

Festive lighting

30

Bring your seasonal event or celebration to life with the sparkle that only festive lighting provides. Whether it is strung lighting, themed displays, ground installations or interactive features, we can guarantee that our lighting will help increase footfall and create some memorable selfie moments!

31

Placemaking

03

If you need to increase dwell time at your event, at a particular venue or neighbourhood, talk to us about our City Dressing and Placemaking solutions which can include flags and banners, street art, urban greening and even projection mapping. The solution can be as big as your imagination.

Design and fit-out

34

If you think you know temporary structures, think again! While most structures start off life as a white “blank canvas”, the sky really is the limit when it comes to branding, wrapping, and theming your structure. Talk to us about your vision for your structure and we will develop a design proposal which is out of this world.

About us

04

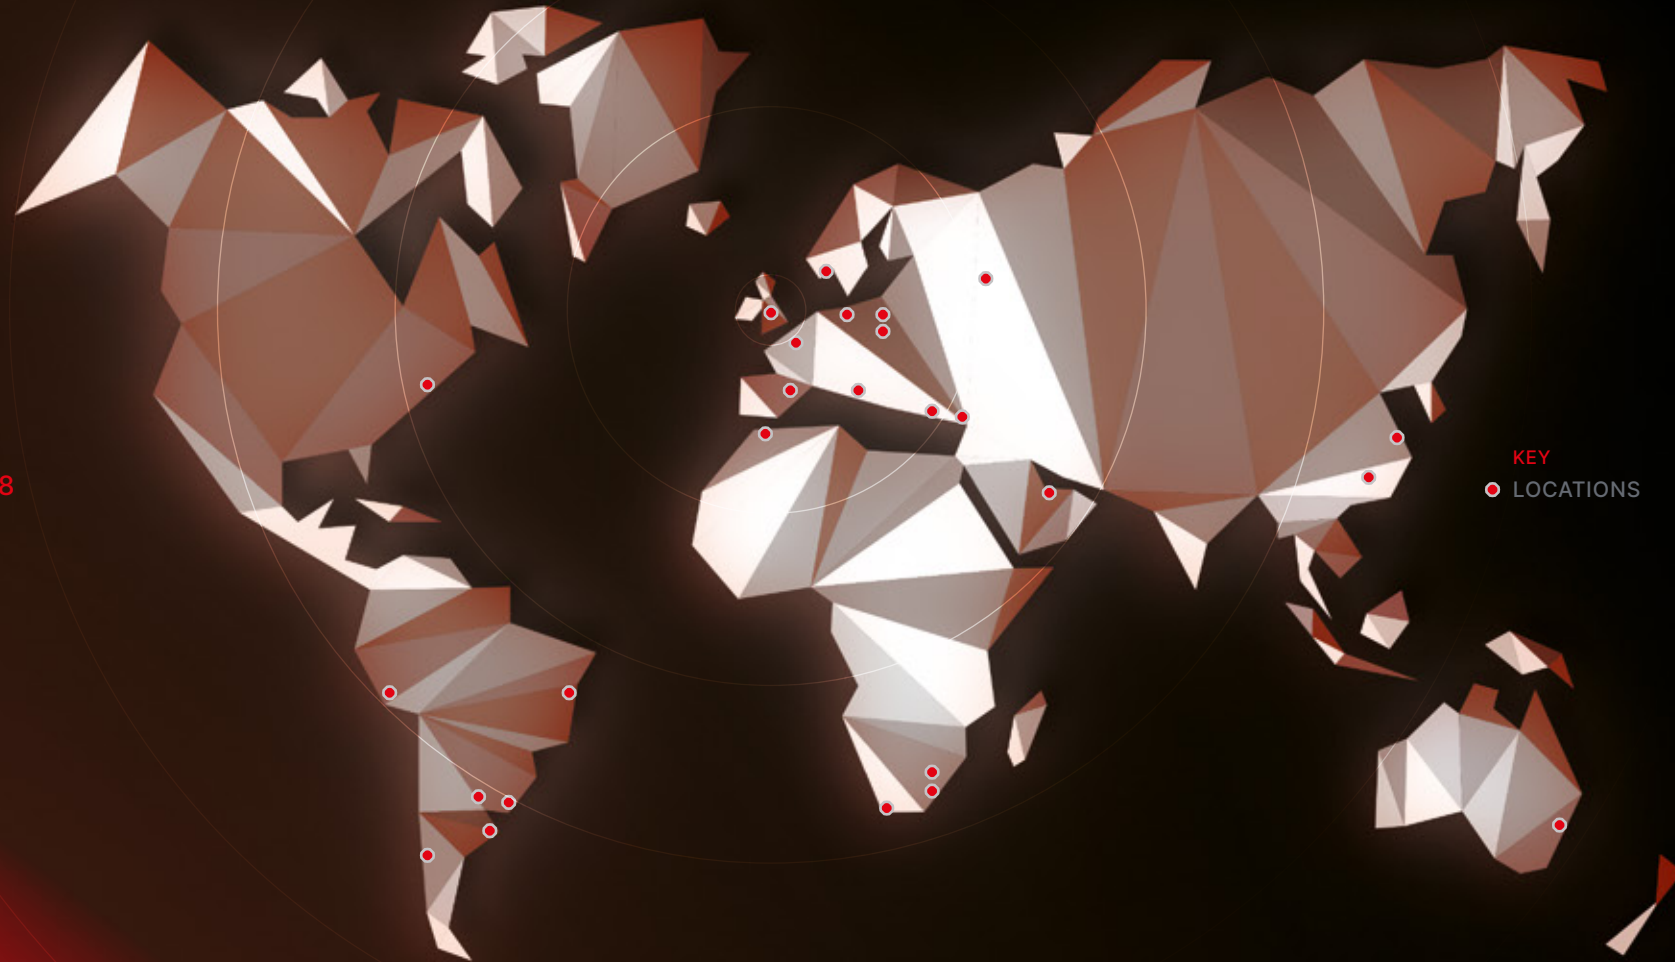

The GL events group is Europe's largest event supplier. With operations in over 20 countries, and nearly 100 offices worldwide, we are a leading global provider of integrated event services and solutions for live events, conferences, venues and exhibitions.

Around the world, GL events supports organisations throughout every stage of the event process, from concept, strategy and design through to final implementation.

Here in the UK, our events business has over two hundred years of provenance, with its origins in rope and tent making on the banks of the River Nene in Peterborough. A lot has changed in the intervening years, and today GL events UK is at the forefront of events infrastructure in the UK and beyond.

Our portfolio of clients contains some of the biggest names in the events calendar. Our long-term client relationships are built on proven delivery and trust, and a drive to evolve and innovate year on year. Our willingness to listen, understand and value engineer fresh, imaginative and effective event infrastructure solutions continues to add new clients to our portfolio each year.
